

PROCEDURES for Inspectors performing Site Visits

Present the Facility representative with a copy of their:

- RCRIS Handler Information Report (attached)
- Copy of the current Notification Form (attached)
- Copy of the current Notification Booklet (attached)

Our instructions to them are printed on their RCRIS Handler Information Report - and should be self explanatory. If the facility wants to make a change, they must complete a Notification of Regulated Waste Activity form and send it to the Department of Natural Resources, Waste Management Program, Jefferson City, MO.

If during the course of the site visit, the inspector/investigator becomes aware of any changes which should be made to the information printed on this form, please make the corrections and return the form to: Harriett Jones in ARTD/RESP.
